

FormsADDA Website Enhancement & Real-Time Notification System Requirement Document

Project Title

Real-Time Education Intelligence & Notification Aggregation System for FormsADDA

Objective

To make FormsADDA the most trusted and fastest education information platform in India by automatically collecting, processing, and publishing admission updates, application dates, examination notifications, board announcements, AICTE/UGC circulars, and other education-related updates from official sources in real time.

1. Real-Time College Admission Monitoring System

Requirement

Develop an automated data extraction system that continuously monitors official websites of:

Institutes

- IITs
- NITs
- IIITs
- IIMs
- Central Universities
- State Universities
- Government Colleges
- Private Universities
- Medical Colleges

- Engineering Colleges

Data to Extract

- Admission Notification
- Application Form Opening Date
- Application Form Closing Date
- Registration Start Date
- Registration Last Date
- Exam Date
- Counselling Date
- Merit List Release Date
- Fee Structure Updates
- Scholarship Announcements
- Seat Matrix Updates
- Eligibility Changes
- New Course Launches
- Placement Reports
- Prospectus Updates

Features

- Automatic scraping every 30 minutes
- AI-based duplicate detection
- Instant database update
- Admin approval workflow (optional)
- Auto article generation
- Notification tagging by course and college

Output

Example:

IIT Delhi Admission 2027 Started

Application Start Date: 10 June 2026

Last Date: 20 July 2026

Official Website: iitd.ac.in

Status: Active

2. Education Board Notification Monitoring System

Requirement

Build a notification extraction engine for educational boards.

Boards to Track

- CBSE
- CISCE
- JAC
- BSEB
- UP Board
- Rajasthan Board
- MP Board
- Haryana Board
- Punjab Board
- Maharashtra Board
- Karnataka Board
- Tamil Nadu Board
- Telangana Board
- Andhra Pradesh Board
- Kerala Board

Data to Extract

- Result Notifications
- Exam Schedule
- Date Sheet
- Admit Card Updates
- Revaluation Notice
- Supplementary Exam Notice
- Registration Updates
- Marksheet Notifications
- Circulars
- Academic Calendar
- Board Announcements

Features

- Real-time monitoring
- Automatic alert generation
- Category-wise filtering
- Push notification integration
- WhatsApp alert integration

Example Output

CBSE Released Class 12 Revaluation Notification

Published Date: 15 June 2026

Last Date: 25 June 2026

Source: Official CBSE Website

3. AICTE, UGC & Regulatory Body Monitoring System

Requirement

Develop a centralized regulatory notification engine.

Organizations to Monitor

- AICTE
- UGC
- NTA
- Ministry of Education
- NMC
- DCI
- PCI
- BCI
- NCTE
- NAAC
- NBA
- AIU
- NCERT
- Education Ministry Notifications

Government and education bodies regularly publish notifications, circulars, policy updates, approvals, and academic announcements that can be tracked automatically.

Data to Extract

- Latest Notifications
- Circulars
- Public Notices
- Approval Updates
- New Regulations
- Policy Changes
- Scholarship Announcements
- Accreditation Updates
- Institution Approvals
- Ranking Updates

Example Output

UGC Issues New Academic Credit Framework

Notification Date: 16 June 2026

Category: Policy Update

Status: Active

4. AI-Based Content Generation Module

Requirement

Once a notification is detected:

Auto Generate

- News Article
- Meta Title
- Meta Description
- SEO URL
- Social Media Caption
- WhatsApp Message
- Telegram Alert

- Push Notification

Example

Notification Detected:

"JEE Advanced Registration Started"

Auto Generated:

Title:

JEE Advanced 2027 Registration Started – Check Dates, Eligibility & Application Process

Meta Description:

JEE Advanced 2027 registration begins. Check application dates, eligibility, fees, and direct link.

5. Admin Dashboard

Dashboard Features

Statistics

- Total Notifications Today
- Total Colleges Tracked
- Total Boards Tracked
- Total Regulatory Updates
- Trending Notifications

Filters

- By State
- By College
- By Course
- By Exam
- By Board
- By Notification Type

Search

Global search across all notifications.

6. Student Alert System

Features

Allow users to subscribe based on:

- College
- Exam
- Course
- State
- Board

Alerts Via

- Email
- WhatsApp
- Telegram
- Push Notification
- SMS

Example:

User subscribes to IIT Delhi

Whenever IIT Delhi publishes a notification, FormsADDA automatically sends an alert.

7. SEO Benefits for FormsADDA

This system can generate:

- 500–1000 new indexed pages monthly
- Real-time admission updates
- Higher Google Discover visibility
- Better ranking for admission keywords
- Increased organic traffic
- Higher user retention

Priority Level: HIGH
